The American Art-Union.

In the City of New York, was incorporated by the Legislature of New York for the promotion of the Fine Arts in the United States.

It is managed by gentlemen who are chosen annually, by the members, and receive no compensation.

To accomplish a truly national object, uniting great public good, with private gratification, at small individual expense, in a manner best suited to the situation and institutions of our country, and the wants, habits and tastes of our people, the Committee have adopted the following:

PLAN.
Every subscriber of five dollars is a member of the Art Union for the year, and is entitled to all its privileges.

The money thus obtained, (after paying necessary expenses) is applied.

First—To the production of a large and costly Original Engraving from an American painting, of which the plate and copyright belong to the Institution; and are used solely for its benefit.

Of this engraving every member receives a copy for every five dollars paid by him.

Members entitled to duplicates are at liberty to select from the engravings of previous years.

Whenever the funds justify it, an extra engraving or work of Art is also furnished to every member.

Every member also receives a full Annual Report of the proceedings, &c., of the Institution.

Second—To the purchase of paintings and sculpture, by native or resident artists. These are publicly exhibited at the Gallery of the Art-Union till the annual meeting in December, when they are publicly distributed by lot among the members, each member having one share for every five dollars paid by him.

The business of the Institution, out of the city of New York, is transacted by Honorary Secretaries, who receive and remit subscriptions, and deliver to members in their vicinity the Reports, Engravings, and works of Art. They are forwarded at the expense of the Institution.

The income of the Art-Union the last year was \$22,255 dollars, and one hundred and forty-six paintings, varying in price from \$15 to \$300, were distributed by lot among its members, and each member also received a copy of a large line engraving, "Sir Walter Raleigh parting with his wife on the morning of his execution."

The committee have already in progress, for the members of this year, two large engravings, the "Jolly Flat-boatsmen" to be engraved by Doney, after the picture by Bingham, and the "Sybil," to be engraved by Casilear after the picture by Huntington, of both of which every member will receive a copy.

The annual meeting and distribution will take place this year on the 21st day of December.

It is very desirable that the dues of the members should be paid early in the year, that the Committee may make their purchases at the best advantage.

Subscription and payment may be made to the subscriber, Honorary Secretary for Newport and its vicinity.

UNCERTAINTY OF THE LAW.

The Uncertainty of the Law is capitally illustrated by the Pittsburgh American, in a story which we have not seen beaten for many long days.

It is no unusual thing to see men in this country rise to eminence at the bar, and in the State, by their own unaided energies, and the natural vigor of their minds. Of this kind was Judge S— of Maryland.

He had come to the bar late in life, avoiding or overstepping the dull technical formalities which surrounded the usual approaches to the practice. Having reached the profits and advantages of his profession without them, he felt or affected for them indifference or contempt, and the old Martineau of the law were often made to stare at the liberties he would take, with what they deemed indispensable and necessary forms and rules of the practice. To S—, the former was nothing, so that he could seize the right.

A notorious offender, who had long escaped the meshes of the law, by means of flaws and holes in indictments, was to be tried before him. General Mason was his standing counsel; and the fellow's fortune, and the ingenuity and tact of his counsel were considered as good as law proof. Judge S. was well satisfied that the fellow deserved punishment and was determined that he should receive it, maugre the talents of Mason, or any legal difficulty that might interpose.

The prosecution went on, and the counsel made a very clear case. The offence was proved point blank, and Mason began to think his client rather cornered, when the prosecuting attorney to make assurance doubly sure, called one more witness, a very respectable man in the country. He confirmed all that had been proved by former witnesses, as to the offence, and this additional important fact—that the offence was committed in Pennsylvania and not in Maryland, it being in one of the border counties. Apparently the Court paid no attention to this part of the testimony.

The criminal's counsel then remarked that he supposed that he need call no witnesses as the fact so well ascertained, at once put an end to the prosecution.

'Not at all—not at all!—go on' said the Court.

'Your Honor will not attempt to try' an offence committed in another State?

'I tell you I will, sir, and show you good reasons for it! The offence has been clearly proved and deserves punishment; we have got him here, and can punish him. In Pennsylvania they cannot catch him, and the law is not to be balked by such technicalities.'

The counsel here remarked that he could convince the court of its error; if he had time to look up authorities;—he had not the books with him, but could procure them in a half an hour.

'Oh, I will give you as much time as you want,' replied the Judge. 'Take half a day if you choose.'

So soon as Mason had left the court, in search of these unanswerable authorities, the judge turned and remarked to the jury, that they had heard the testimony; and could no doubt make their verdict, and he would take care of Tom Mason. The court sentenced him to receive fifty lashes on the bare back, and ordered the Sheriff to execute the sentence forthwith. His counsel returned with the least possible loss of time and without noticing the absence of his client, commenced quoting his authorities and arguing therefrom, the Court taking notes and listening very attentively all the time. Mason at last missed his client, and enquired where he was.

'Never mind—never mind—go on, Mr. Mason, said the Judge.

But Mason had become alarmed—had refused to go on, until satisfied of the whereabouts of his client.

'Well, Mr. Mason,' said the Judge, 'if you will step to yonder window you can see him.'

Mason proceeded in the direction indicated by the Judge's gesture, and had no sooner looked out than he turned to the

court, with the exclamation—'Why, sir, they are flogging him!'

'That makes no difference,' replied the imperious Judge—'proceed to your argument!'

'What good will my argument do?—the man is already sentenced and punished. I have nothing to gain by convincing the court!'

'Oh, yes; I will grant you,' said the Judge—'a new trial!'

WARMING A BED.
A good lady in the city of Portland, whose husband was tormented with the rheumatism, was advised by a neighbor to warm his bed with a pan of coals and to throw in a little sugar. She accordingly threw, upon the sheet something like a pound of brown Havana sugar, and proceeded to draw a pan of hot coals briskly between the sheets, by which operation the sugar was high restored to its primitive state, and made hot as when it came from the boiling cauldron. Meanwhile the old man had deduced himself, and when the pan was withdrawn, crawled between the sheets as fast as his lameness would permit. But the bond from the bed gave the lie to his complaint—no member of the R— family could have vaulted the floor with more agility than the sugar scalded codger, and no Stentor could have roared louder than he did. In the jump he struck the dame, and man, woman, two children and the hot coals came to the floor together. But the coals were scarce less comfortable than the hot sugar, and the evening's entertainment concluded with ground and lofty tumbling by the whole company. But the exercise thus taken was productive of good, and barring the scald skin, the old man was rendered more free from pain than he had been for many years.

THE RACE.—The following description of the race between the steamboats Oregon and Cornelius Vanderbilt, we cut from the New York Herald:

A few minutes before eleven o'clock, the Vanderbilt appeared off the Battery, when the Oregon left her berth, passed around her harbor side, and at four minutes before eleven o'clock, everything being ready, the signal was given for a start, and both boats appeared to spring from their positions. The race was contested with so much spirit on both sides, that the boats kept side and side for thirty-three miles, neither was gaining a foot on the other.—At first the Vanderbilt gained on the Oregon, the former making twenty-one revolutions, and the latter nineteen and a half revolutions. The Oregon increased her revolutions to twenty-one and twenty-two revolutions, when she gained on the Vanderbilt, and arrived at the stake boat, opposite Sing Sing, half a length ahead, in one hour and thirty-five minutes from the Battery, thirty-nine miles. When passing the Vanderbilt, she was run into by that boat, and her wheel house much damaged. Upon turning the stake boat at Sing Sing, the engineer of the Vanderbilt made a mistake in answering the bell from the wheel house, and instead of reducing the speed so as to allow the boat to turn quicker, stopped the engine entirely, which retarded her progress very materially. The Oregon had the start on the return, and maintained it throughout the race, coming in about four hundred yards ahead. When off Harlem, her supply of coal gave out, and they were obliged to burn up berths, settees, chairs, doors, and everything else of a combustible nature they could get their hands on. Several inches of steam were lost by this, but she was so far in advance of the Vanderbilt that the latter could not recover.

On the return both boats were pushed to the utmost. Each made twenty-two revolutions, and everything the boilers would bear was put on. The distance from the Battery to the stake boat opposite Sing Sing and back to the starting point, was seventy-eight miles, and the Oregon ran it in three hours and fifteen minutes, against the tide one way and with it the other, which is equal to slack water, being an average speed of twenty-four miles per hour, or an average of a mile in two minutes and a half. When we take into consideration the fact of turning a stake boat the time made is wonderful.

Correspondence of the Picayune.

JALAPA, MEXICO, May 14, 1847.

It is now confidently asserted that Santa Anna has moved from Orizaba, and in the direction of Puebla and Mexico. The administrador de las diligencias—general stage agent I suppose he might be called in the vernacular—left yesterday for the capital on business for the line, but this morning he returned with more speed than he went. He reports having met at Cerrado Leon, near Perote, with a force of seventy armed Mexicans, whose appearance he did not at all like. From stragglers he learned that Santa Anna, with a large force, had passed on towards Puebla; that the roads were filled with robbers and brigands, and that it would not be prudent for him to go on.

Last night, an intelligent Spaniard informed me, that he had seen two letters from Orizaba, one dated the 6th and the other the 7th inst. On the first day the letter stated that the first brigade or division of Santa Anna's army had started en route for Puebla, and on the 7th, the other division marched in the same direction.—His entire force was put down at 2500, the most of them indifferently armed and under little or no discipline.

If Santa Anna has moved towards the capital, and there certainly is good reason to believe that he has, his intentions are doubtless to control the election for President, which takes place to-morrow. He cannot certainly have the temerity to even think of attacking General Worth, whose division could put to flight 10,000 of the best Mexican troops that ever bore arms; so that the conviction is irresistible that he intends having a hand in the coming election. One would naturally think that after his many disgraceful reverses he would either attempt to leave the country, or else hide himself in some obscure part of it; but the cowardly tyrant loves power and place too well, and will cling to them as long as there is a dollar, a musket, and an open road on which to run left in the Republic.

ARRIVAL OF THE HIBERNIA.—The steamship Hibernia, arrived at Boston yesterday morning, fifteen days from Liverpool, and bringing eleven days later intelligence.

We are indebted to Mr. JAMES D. SEARBY, of Kinsley's Express, for a copy of the European Times.

Provisions of all kinds have gone up rapidly since the last advices. The Times thinks that wheat has arrived to its highest price, for the price is so high now that it is entirely out of the reach of the poorer class, and it consequently must recede. On the 4th ult., at Liverpool, wheat sold for 11s a 11s, 6d per hundred, and on the 18th it was sold as high as 24s 8d. Indian corn went up from 51s per quarter to 65s. Flour has risen from 7s to 9s per quarter, and is now selling as high as 47s 6d.

In London, Flour has advanced 10s within a fortnight, and extensive sales have been made at 50s a 52s per bbl.

IRELAND.—The accounts from Ireland are very awful. A Dublin correspondent of the Morning Chronicle, says, 'There have been further tumultuary proceedings and processions of the peasantry in various parts of the country, and the military and police have been in general requisition to keep this spirit of subordination in check. The reports of the progress of pestilence are quite disheartening, and, notwithstanding all the imports of food, and the immense extent of relief in food and money, great destitution still prevails, and the markets are advancing. All accounts concur in showing that the mortality is still very considerable. According to some calculations, the population has already been diminished to the extent of nearly one million, from deaths and emigration.

Father Matthew is likely to be appointed Roman Catholic Bishop of Cork.

CHINA.—The Moniteur Belge states that the Chinese Repository gives an account of a civil war between the two neighboring departments of Chare Ghao and Tseyan Chao, in the province of Gokien, in which 24,515 houses and 658 huts were pillaged and burnt to the ground, and one hundred and thirty thousand six hundred and thirty-eight persons were killed or wounded.

On the 4th of April, one of those dreadful fires which are curse of Turkey, broke out in Bucharest, the capital of Wallachia. The fire consumed in its progress upwards of 2000 houses and 27 public establishments. Loss estimated at from £1,000,000 to £2,500,000.

SANTA ANNA'S LEG.—The leg that Santa Anna "left behind him" has arrived at New Orleans. It is described as being a very beautiful piece of work, worthy to be worn by a more valorous man than its late owner. It now belongs to Company G, 4th Regiment Illinois Volunteers, who took the travelling carriage of the Mexican General.

We understand that Mr. Barnum, the enterprising proprietor of the American Museum, New York, is making arrangements to purchase this leg, if possible, to add to his innumerable number of similar curiosities. Persons visiting the city cannot be more highly entertained than by paying this Museum a visit.

THE LADY'S ALBUM for June, published by Cochran, Cole & Co., Boston, is on our table. This number fully sustains the high reputation this magazine has deservedly earned. It is published monthly, at the low price of one dollar per annum.

We are again under obligations to Mr. Chace, Clerk of the Bay State, for New York papers. The foreign news is all we find of interest.

MEXICAN PRIVATEERS.—A Barcelona date, of the 3d of May, states that the Mexican privateer Unico, of Vera Cruz, carrying one gun and fifty three men, had captured in the waters of Arica and brought in to Barcelona, the American bark Carmelite, Capt. Edwin Littlefield, bound from Ponce, P. R., with coffee to Trieste.

(This is a Maine vessel, owned, we believe, at Kennebunk.)

THE BEAUTIFUL YOUNG LADY OF BROOKLYN AND RADWAY'S CHINESE MEDICATED SOAP.—Last fall we published a letter from a young lady in the city of Brooklyn, who, while on a visit to her friends in New Jersey, had experienced intense pain from the bites of mosquitos, and great annoyance from the unnatural darkness of her tanned complexion. Her skin had become parched, dry, and unhealthy—covered with pimples, blotches, pustules, freckles, &c., she was recommended by some friends to use, as a toilet emollient, Radway's Chinese Medicated Soap. A few days' use of this very excellent and super-

rior Soap exceeded the expectation of all; her skin became smooth, soft, pure, sweet, and healthy; her complexion restored to its former prepossessing appearance, all of which owed its restoration to the curative properties and soothing influence of Radway's Chinese Medicated Soap.

This is but one of thousands of others, who prefer the use of Radway's Soap to all other soaps recommended for the same purposes. We do not pretend that our Soap will restore the complexion of the emaciated victim of consumption to the bright hue of health, or promise to do; but we do vainly claim, and amuse to do; but we do pretend to say that Radway's Chinese Medicated Soap stands unrivalled in the productions of Chemists, for the purposes for which it is recommended, and is a superior article to the Eucalyptus de Venus and Nymph, (which is introduced to the public by our own matter, which the proprietor of that article has ungenerously copied from one of our Circulars of 1845, without our permission, slightly altering the phraseology of our language to suit his own purpose,) or any other Soap in the market. Now we leave the public to judge for themselves. Do you wish to possess a fair, healthy skin, pure and sweet skin, free from all spots, blemishes, freckles, pimples, blotches, pustules, ring worms, &c? Use the genuine Radway's Chinese Medicated Soap, which is warranted by us to do all that it is recommended. This soap is sold cheaper than any other article of the kind in the market, and for ordinary toilet purposes it will do more service than other Soaps of three times its bulk. Sold for only ONE SHILLING per cake, by R. J. TAYLOR, and C. G. C. HAZZARD, by New York. Country Agents can be supplied by R. J. TAYLOR, J. & R. G. RADWAY, No. 2 Courtland street, N. Y. June 3.

Dr. Banning's Patent Hair Lotion, For Weakness of the Hair.

The following letter is submitted to a discerning public, and the proprietor is enabled to refer to many individuals—whose testimony will satisfy the most incredulous. Be particular and get Banning's Lotion, and be put off with nothing else.

WARREN, August 22, 1846.

Dr. Banning—Dear Sir:—Now being about leaving for home, I am able to give you this favorable account of the Lotion which I have worn only four days. For more than four years I have suffered greatly from dyspepsia, that scourge of our race. My food has always been almost every day—my stomach would reject it almost every day—that my bowels always constipated, and my spirits greatly depressed. I was unfitted for any regular business, and till I saw you, I had given up the hope of ever being better. I had consulted many physicians, and in Boston, those the most celebrated, and spent nearly all the money I could earn, upon them, and all these medicines. Since I have worn the Lotion, all these symptoms have in a great degree vanished, and now, it seems to me, I shall be well again. I find my body regaining its erect position—the spitting up my food is pretty much over, my spirits and energy are returning, and I feel like a new man.

S. W. HILL, Sept. 4.

This may certify that I have used, Pool's Lotion, (as prepared by Messrs. Ames and Olds) for Scalds, Burns, Bruises, &c., and am happy to say that I believe it is all it purports to be.

JOSEPH KENDALL, at H. N. Hooper & Co., Commercial St.

I can cheerfully testify to the above as I have known its good effects for two years.

S. S. MERRIAN, at the Machine Shop of the Boston & Worcester Railroad.

Sold in this town by Wm. H. Greene, and M. Freeborn & Co. Jan. 8.

DR. WISTAR'S BALM OF WILD CHERRY.—This is a chemical extract of Wild Cherry and Tar. Everybody knows that Wild Cherry possesses important medicinal properties; and Tar Water has always been administered in Consumption, and Lung affections generally, by our oldest and safest physicians.

Various remedies, it is true, have been offered and puffed into notice for the cure of diseases of the lungs, and some have been found no doubt very useful, but of all that have yet been discovered, it is admitted by physicians, and all who have witnessed its effects, that none have proved as successful as this. For Asthma, Shortness of Breath, and similar affections, it may be pronounced a positive cure. It has cured Asthma in many cases of ten and twenty years' standing, after physicians had declared the case beyond the reach of medicine.

This Balm is made from materials which Nature has placed in all northern latitudes, as an antidote for diseases caused by cold climates. "Nature is but the name for an effect. "Whose cause is God."

Let us not neglect her plainest dictates. None genuine, unless signed I. HUTTS on the wrapper. For sale by R. J. TAYLOR.

UNITED STATES HOTEL. On Pearl, Fulton and Water sts., New York, BY H. JOHNSON.

THIS is one of the largest and best kept Hotels in the city of New York. Board \$1.25 per day. Its location is particularly convenient for business men, and Mr. JOHNSON, the popular and gentlemanly landlord, makes the comfort of his guests a constant study.

From the Boston Daily Whig, of Feb. 12, 1846. HYPERION FLUID.—Those who wish for a valuable preparation for the hair, are referred to Mr. Bogle's advertisement in another column. His Hyperion Fluid, it is supposed, will soon supersede most fluids now in use for the hair, as it is of very superior quality.

The relatives and friends of Henry J. Hudson, are invited to attend the funeral of his wife this afternoon, (Friday,) at 2 o'clock, from his house in Thames street. June 4.

Notice.—Registry of Voters of Newport.

THE Town Council of the town of Newport will meet at the Town Clerk's Office, Monday the 14th day of June inst., at 2 o'clock in the afternoon, to examine the Registry of Voters for the town of Newport, in open meeting, and to purge the same as the law directs; by placing against the names of all persons thereon, who are dead, or who for the space of one year have ceased to reside in this town, the word "dead," or "non-resident," as the case may be, and to correct the Registry whether the same person is registered more than once thereon. By order, BEN. B. HOWLAND, Council Clerk. Newport, June 2, 1847. June 4-11d

New and Important Arrangement.

W. GOFF has the pleasure of informing his patrons that an arrangement will be completed in the course of next week by which he will be able to furnish the third and latest edition of the New York Express, which goes to press only once hour before the steamers leave for Newport and Fall River. This will be a new and important feature in Newspaper Agency.

I would further state to those who subscribe and receive their daily papers by mail, that they are paying Two Dollars and twenty-four cents per year more than it costs to receive them of me. Merchants, too, who generally have a quick eye on the Markets, can always get the latest price current before the mail is distributed.

Lots of Books constantly on hand, and scarcely a steamer arrives from New York, but furnishes something new in the department of literature.

N. B. Particular attention paid to orders for Music, Books, &c., and furnished at New York prices with despatch.

Call at the News Depot 2 doors North of Post Office. June 4.

Notice.

THIS is to notify my friends that I have been dropped as Constable for reasons unknown to me. I did state that the Town Council ought to be changed. I voted for all the failures of the town as they stand at present. Further, I call on all those I have done business for, in this town or other towns, to call on me and settle the accounts I have for collection. And further do say no man can say I have not paid all that I have business with.

P. S. I am very much obliged to all my employers, and do stand in readiness to collect bills, as I did before I was dropped as an officer.

Brownell's Cooking Range.

THE subscriber has just completed the invention of a new Cooking Range, to which he invites the attention of the public. This Range possesses qualities for expeditious boiling and cooking that other Ranges do not, and it occupies but a small space of room.

Brownell's Cooking Range has six eight inch boilers, any two, or four of which, can be thrown into one, so as to admit of a large boiler; and it is provided with a set of rings so that any size furniture can be used on it. Its Oven is large, convenient of access, and having an upward draft, it takes evenly with a small quantity of fuel.

One of these Ranges is in successful operation at the store of the subscriber, subject to the examination of the public, who are invited to call and take a look at it. WILLIAM BROWNELL. June 2.

TO THE LADIES IN PARTICULAR.

MY DEPILATORY POWDER has been found highly beneficial and of great use to ladies who have been afflicted with superfluous hair, principally when its growth has been confined to the upper lip and side of the face, giving a masculine turn to the whole features. When used with proper care, and according to the directions, it will be found to be a great addition to the toilet, as the use of any sharp instrument is entirely avoided, and the hair is removed in five or ten minutes after its application.
This composition is infallible, and warranted to remove superfluous hair. After numerous trials, I have received certificates of success which cannot be contested. For sale, wholesale and retail, at

TO THE BEAUTIFIERS OF THE COMPLEXION.

SURPRISING EFFICACY. My Eau Divine Sole Venus and Nymph Soap, composed of an eastern botanical discovery of surprising efficacy for rendering the skin soft and fair, as well as imparting a delicate roseate hue to the complexion. As a creator and conservator of that most distinguishing charm of female loveliness, a transparent fair skin, Jules Hauer's Nymph Soap, or Eau Divine de Venus, may be said to exert an almost magical influence. Composed for the most part of oriental balsamic plants, to the utter exclusion of all mineral admixture, it is distinguished medically, for its extremely bland, purifying and soothing action on the skin; and by acting on the pores and minute secretory vessels, expels all impurities from the surface, allays every tendency to inflammation, and, by this method alone, effectually dissipates all redness, tan, pimples, freckles, sunburn, and other unsightly cutaneous visitations, so inimical to female loveliness. Its use will change a most bilious complexion into one of radiant whiteness; while on the neck, hands, and arms, it bestows a delicacy and fairness which its continued use will happily protect, with every appearance of youthful charm to the most advanced period of life.
For sale, wholesale and retail, by
JULIUS HAUER,

Coggeshall & Bliss' Patent Cooking Range.

THE subscribers have just taken out letters patent for a new and beautiful cooking Range, to which they invite the attention of the public. This Range may be set in the ordinary fire place; and by a simple, though effectual apparatus, the throat of the chimney may in an instant of time, be opened or closed, so that the heat in summer and the fumes from cooking at all times may escape through the chimney.
Wood or coal may be used, and the evil of smoking chimneys is completely remedied by its introduction.
This Range is so constructed that it takes up but a small space, and yet it contains all the qualities of those which take up double the amount; and it being constructed as it is, the Boilers are brought in close proximity with the fire, and it consequently boils much sooner, and with a smaller amount of fuel, than the old fashioned Ranges, or cook stoves. It contains five boilers, four of which may be converted into two, by taking out a cross piece, and thus will admit of two large boilers at the same time. It also contains and Over 12 inches wide by 21 deep, which cannot be surpassed for baking.
The subscribers have one of their Ranges in operation at their store, where the public are invited to call and examine it, and if they will, they must at once discover its utility. They also keep constantly on hand all kinds of Parlor, Office, and Cook Stoves, Tin Ware, &c., &c.

IMPROVED COOKING RANGE OF MESSRS. COGGESHALL & BLISS.

THE undersigned having in their houses a new improved Cooking Range, constructed by Messrs. Coggeshall and Bliss, of this town; and being fully satisfied with its performance and general utility, take pleasure in certifying to the same, and recommending it to the public as the best thing of the kind with which we are acquainted. We would notice more particularly the Oven, which, by its construction, furnishes a uniform heat, and the baking is performed with less attention and more perfectly, than in any Range or Stove that we have ever used. In a word, it contains many advantages, and consumes a small quantity of fuel.

MY EAU LUSTRAL HAIR RESTORATIVE.
This universally approved and admired article, free from ardent spirits, pungent essential oil, and other destructive materials, cleans the hair expeditiously, renders it beautifully bright, and imparts to it the delicate fragrance of the flowers. Hair washed with this Extract soon becomes pleasingly soft and luxuriant in its growth, and it will positively bring in new hair on bald heads by its use; and hair that has been made harsh, and is turning gray or falling out, by the use of spirit or other improper preparations, will soon be restored to its natural color and brilliancy, by a few applications of the Eau Lustral.
It is a preservative against baldness, and an infallible cure in all affections of the skin on the head, as dandruff, and for preventing the falling off of the hair and turning gray.
Evidence.—Nature is an inexhaustible mine, in which experience and study will always find room to excavate; it is that source alone which produces all that man calls invention, and which he would do better, perhaps, to name adaptation.

Coon's German Pain Extractor.
Saved a Fellow Creature's Life.
READ the following letter:

Saghatike May 8, 1845.
Mr. M. P. Coon's—Dear Sir, Perhaps it is not
known to you what your Salve has done for me,
and as I understand that you have brought your
article before the public, I therefore hasten to in-
form you of the benefits I have received from its
use. On the twelfth of February, 1841, I received
a severe wound in my knee joint by an axe, a Phy-
sician with council were sent for immediately, who
considered my case desperate. I lingered along
for the space of three months under Medical treat-
ment, and when a Medical Consultation was called
and amputation resolved upon. I finally declared
that my limb and body should not be separated,
while life and reason lasted. At this crisis of af-
fairs, a neighbor kindly offered to dress my leg
with a plaster of your Pain Extractor as an experi-
ment, to which I reluctantly consented. Two
hours from the time it was first applied, the wound
felt altogether more comfortable, and I rested with
comparative ease. I procured a supply of the Salve
and continued in the use of it alone for one week,
and was then able to walk about some by the aid of
Crutches. The wound continued to heal rapidly,
and in five weeks from the first application of your
salve, I was enabled to resume my occupation as a
Carpenter. I can truly say, that I am wholly and
rejoice indebted to your salve for my limb.
Yours, with due respect,
(A Copy.) **HENRY P. MYERS.**

LORRAINE'S PILLS.
All persons require Facts.
DR. LORRAINE'S CURATIVE SYSTEM
OF MEDICINE is rapidly producing achievements
never before known in the cure of diseases. The
immensity of its wonderful results, alone demon-
strate that its principles must be founded on truth.
The relative proportion of Cures by this Medicine
is out of all proportion greater, than by any other
Medicine known.
THE THEORY is, that one blood beats in the
bosom, and flows through the body of every man,
and must be pure, it is the Vital Principle that sus-
tains life.
Physicians, and people of every class are willing
to come forward and announce, in the most public
manner that they have been cured of longstanding
complaints—after another medicines had failed.
In act there can be no doubt but that Lorraine's
vegetable Pill is the best medicine ever offered to
the public.
See a few public statements of men of truth and
virtue.

Lynn, Dec. 17th, 1843.
Sir: I have sold all the pills I last had of you,
please send another lot immediately. The sale of
Lorraine's vegetable Pills is rapidly on the increase,
they are becoming very popular. I sell more and
more every day. As a curative medicine and pur-
rifier of the blood, I think they stand unrivalled.
One fact I have noticed, that no one that has used
them finds any fault with them; they have wrought
some very great cures. One lady, who has been
confined to the house and bed, a great part of the
time, for twenty years, is now cured and able to
work most of her time, after having taken 3 boxes
only of Lorraine's Pills! I might name many
other cases where the cures have been as great,
but have not time. Yours respectfully,
J. E. F. MARSH.

Portland, Me., Nov. 17th, 1843.
Sir: Please send us one gross of Lorraine's
Pills, we have sold all we had last. They have
given very good satisfaction, better than any other
pills which we have in our market. I think in
a short time they will take the place of others.
We have had no fault found with them, whatever;
but, on the contrary, they have been praised loudly.
I think we could have quite a number of highly
respectable certificates from our citizens.
Yours respectfully,
J. E. F. MARSH.
Cleves, Jan. 3d, 1844.
Sir: I transmit to you an account of my case
for publication, believing it to be my duty. I
have been confined with the Rheumatism nearly
the whole winter, have had some of the best phy-
sicians of Boston and could get nothing that would
relieve me more than temporarily. I heard of the
wonderful virtue of Lorraine's Pills, I had no faith
whatever, but I took them, and it is a solemn fact
that when I had taken but eight pills my Rheumatism
had entirely left me, and I have remained well
ever since.
N. B. I never took more than one pill at a
time and that on going to bed.
Yours respectfully, **W. M. HALSTAD.**

OPINION OF A SKILLFUL PHYSICIAN.
Sir, the operation of Lorraine's Pills is past any
philosophy to find out, how so small a Pill can
produce such wonderful effects. I find that one of
them will operate more than 3 or 4 of any other
Pill, yet in their operation, mild, gentle and com-
forting. On this account, they are more than 100
per cent, cheaper, as physis, than any other Med-
icine I know of.
These Pills are now acknowledged by thousands
who take them daily, to be the only medicine that
fairly takes the Bannan from all others. This ex-
traordinary medicine has actually done wonders
within one year past. They cause no pain or un-
easiness of any kind in their operation, and require
neither change of diet or care of any kind.
The attention of the reader is respectfully called
to the important results from the use of these Pills.
It will be seen, however great achievements have
heretofore been made by the use of this invaluable
medicine, still greater and more remarkable cures
daily happen.

**Bogie's Hyperion Fluid; Or Vegetable Hair
Composition.**
THE subscriber has been induced to bring this
article before the public, at the request of his
numerous customers, among whom are physicians
and citizens of the first respectability, who have
adopted its use in their families, and wish others to
participate in its advantages.
The Hyperion is composed of vegetable ingredi-
ents, the secret of compounding and blending which
is known solely to the subscriber. It is an arti-
cle in which a cleansing and purifying wash is
beautifully blended with a most delicate, silky and
glossy moisture never before attained, yet free of
animal grease or essential oils. It cleanses the pores
of the skin, causes a healthy action in the blood
vessels, nerves, &c., which feed the hair, thereby
preventing BALDNESS AND GREY HAIR.
It entirely frees the skin from Scurf, Dandruff,
and other cutaneous diseases, dispenses the hair to
curl, and changes the hardest hair into the most
soft, glossy, and healthy state, also imparts to it a
darker color, and the free use of it, both on the
skin and hair, in a most healthy and luxuriant
state until the latest period of life.
Ladies will find the Hyperion a great addition to
the toilet, both on account of its delicate and agree-
able perfume, and the great facilities it affords in
dressing the hair, which, when moist with the fluid,
can be dressed in any required form, so as to
preserve its place, whether plain or in curls.—
When used on children's heads, it lays the founda-
tion of a good head of hair.

TO THE AFFLICTED.
DR. BANNING'S PATENT LACE!
An Immediate Relief to Incipient Consumption, the
Bronchitis of Public Speakers, Palpitation
of the heart, Dyspepsia, Spinal Weak-
ness, Piles, Protrusion, and Diseases
of Women, without Medicines.
THIS instrument has been examined by Drs.
Mott, Rodgers, Francis, and Griscom of New
York, the faculty of Pittsburgh, Hartford, New
Haven and Middletown, and has obtained for itself
their favorable testimony. The following will
show what kind of testimony might be produced
in many cases:
Middletown, June, 25th, 1843.

Dr. Boardman,
Sir—In answer to your inquiry respecting my
case, I will merely say, that I have been sick since
I strained my breast and loins in May, 1836, from
that time continued to grow worse, when in the
fall of '39, I abandoned business, and have not
done any thing since. I suppose from all I could
learn about my case—frequently raising blood,
coughing very hard and expectorating profusely,
deriving no benefit from my physicians, and all
medicines recommended to me, that my case was
hopeless! Last winter my brother told me he had
heard a good account of Dr. Banning's Lace in
such cases, and was anxious that I should try it;
accordingly I procured one from you; and since I
began to wear it, my breathing, which was very
short and laborious, has become easy and natural;
the pain and fluttering or palpitation of the heart
has subsided; cough and expectoration greatly
lessened, my limbs which were exceedingly pain-
ful have become useful, so that I can walk com-
fortably. I am able to shave myself with comfort,
which for many years I have not been able to do.
The piles, which have troubled me for nine years,
are nearly eradicated. I work some in the garden,
and am able to ride 4 miles at once with pleasure
and benefit. Yours, &c. **WM. BANNING.**
Dr. G. M. Boardman,
Middletown, June 25, 1843.

Dr. Boardman,
Dear Sir—In answer to your inquiries re-
specting the effect of Dr. Banning's Lace in the
case of my wife, I will state that for twenty years
past, she has been afflicted with a complication of
complaints to which females are subject. She has
tried all the physicians and all the medicines re-
commended for such complaints, without regard to
expense, and found only temporary relief. Her
most distressing complaints, palpitation of the
heart, oppression and a sense of great weight at
the pit of the stomach, protrusion of the womb, &c.,
were believed after wearing the lace two hours, and
she has continued to improve daily. With this
view of the case I cannot use language strong
enough to convey my approval of the instrument.
aug. 29th. **STEPHEN BRIDGES, JR.**
Providence, Feb. 26, 1846;

Doctor Boardman,—Dear Sir—I now take my
pen to inform you that my wife's health has im-
proved very fast for the last two weeks from wear-
ing one of your Laces. She has been out of health
about two years and has worn a different Support-
er from yours, which had only two pads. She re-
ceived some benefit from that—but it would not
produce a cure. But now I can say with pleasure
that she is as smart as any of the young girls in the
neighborhood. She can now run up and down
stairs as fast as I can, and I feel so well pleased
with it that I hardly know how or what to write.
But one thing I do now, that she has been under
the care of seven Doctors in one year—and wear-
ing your Lace two weeks has or will do the cure
in a very short time. I want to write more, but I
have no time. I am truly, your friend and well
wisher, **J. * ***

lebrated Patent Body Brace, for this state, has taken

Extract of a letter from Hon. Harman Knicker-
bocker, Esq., late first Judge of Rensselaer
County, M. C., & Schuylkill, N. Y.
I was myself attacked with a severe pain in my
ankle and leg, and swelling ensued to an enor-
mous extent, my physician could not relieve me,
after suffering severely a number of days and an
increase of pain and suffering I was considered
dangerous; at this crisis my miller prevailed upon
me to try a plaster of this salve which I did, and
in half an hour I became easy and rested well. I
continued this application and in a few days I was
well. It cannot but prove a blessing to mankind,
if they can be furnished with it.

**MOTHER'S
RELIEF.**

IT is now about ten years since this medicine has
been introduced to the public, and it stands un-
rivaled in its effects, bearing the test of the severe
scrutiny of all classes, both friendly and unfriendly.
It is but for one purpose—for the use of Mothers
who have to pass through a sea of affliction in
giving birth to mankind, not to be described. It
is to you we make an appeal. It is for your
special and general good that you should make use
of one bottle of the MOTHER'S RELIEF before con-
finement. Then you can approach the par-
turing chamber without feeling as if you were go-
ing to the chamber of death. You may rest as-
sured it will still all ferberile and nervous affection.
It soothes and shields from irritation and by
its peculiar properties it destroys the cause of her-
morhage or inflammation that so often attend and
follow the hour of parturition. It causes sweet
and natural rest, and at last facilitates the birth,
so that Mothers have not to pass through such
excruciating pain and distress. The Mother's Re-
lief may be depended upon in all cases of threat-
ening abortion where it is possible to be prevented
in cases of Spasms, &c., causing frequent alarm,
from two to three doses will give immediate relief.

As the subject is one that cannot with propriety
be fully discussed in this public manner, we invite
all who feel interested to call on our agents (most
of the respectable Druggists in the United States),
or on the manufacturer, and they will be furnished
with a pamphlet in which they will find all the
facts to form a correct opinion of its merits, and
also the opinions of many physicians of eminence,
and of persons who have become acquainted with
its beneficial effects.

CAUTION TO PURCHASERS.—Ask for Bar-
tholomew's Mother's Relief. None is genuine un-
less our signatures are found within the wreath
of the direction that is pasted on the bottle, signed
with our own hand, and over the neck of the
bottle is a facsimile of our own hand writing also.
By attending to the above directions, no one need
be imposed upon. All orders will be promptly
attended to. **DR. G. A. BARTHOLOMEW,**

READER! READER
If you are afflicted with Bronchitis, Asthma, Ob-
stinate or common Coughs and Colds, Spitting
of Blood, Interfering of the Lungs, Whoop-
ing cough, croup, difficulty of breath-
ing, sore throat, hoarseness, first
stages of consumption, and
all other Pulmonary
or Lung Com-
plaints, try
**DOCT. EMANUEL'S BALSAMIC LUNG
AND COUGH JELLY.**

THE materials of this Jelly are purely vegetable
and balsamic, and are the invention of an emi-
nent physician, from whom the proprietor has pur-
chased the recipe. It is certainly worth its weight
in gold, but is put at a price to be within the reach
of rich and poor.
Names and residences of persons residing in the
city of New York, who have been cured or bene-
fited by Dr. Emanuel's Balsamic Cough and Lung
Jelly, when it was prepared in another form:
Mr. Hiram Antons, 113 William-st., N. Y., had
for some time, a dreadful pain in his side and chest,
with a hacking cough, and shortness or difficulty
of breath. He used part of a bottle of Dr. Emanuel's
Balsamic Lung and Cough Jelly, which per-
fectly cured him.

Mrs. Morgan, Front-st., Brooklyn, had a very
obstinate cough and cold. She tried every other
remedy in vain, and Dr. Emanuel's Balsamic
Lung and Cough Jelly entirely cured her.

Reader, reader, let the glad voices and grateful
hearts of these respectable citizens of New York,
appeal to your hearts and understandings, if you
are afflicted with any pulmonary complaint,
cough, cold, &c.

Mr. L. W. Conklin, 103 Eldridge-st.
Mr. Alonzo Brown, 72 Reade-st.
Mrs. Morgan, 162 Front-st., Brooklyn.
Orange country, April 19th, 1846.

DR. EMANUEL.
Dear Sir:—You may perhaps think my state-
ment almost incredible. My reason for fearing so
is the fact of your never recommending your
Jelly for the cure of confirmed consumption, but
only in its primary or first stages. I have every
reason to believe that I was in its last stage; my
physician told me so; my friends told me so; as
well did my symptoms, for they were truly alarm-
ing; and I felt convinced, that unless relief
was obtained, I must soon be consigned to the
narrow confines of the silent grave. But by the
timely use of your remedy, I still live, and again
enjoy my former good health. I had, indeed, dear
sir, all the alarming symptoms you speak of as
forming consumption in its worst stage; but by
the use of your Jelly, I again say, I am cured.

Yours, dear sir, with great sincerity,
ISAAC J. BEED.

And now, reader, having given you a plain
statement, let me conjure you to pause, ere it is too
late; try this Balsamic Lung Jelly—try it. I have
put its price to you as low as I can afford; if you
use it, and succeed in curing yourself, I shall have
the gratification of having rescued another from
consumption; and I hope, in return, that you will
not withhold from me your name, and a statement
of your cure.
